NO. 11,049 10TH YEAR

COLORADO SPRINGS, COLO., MONDAY, JULY 3, 1911

PRICE FIVE CENTS

ES S. DEAN'S BERMAN ACTION
FROM HEART
TRIPLE
GUNBOAT IS DISPATCHED
TO MOROCCO.

Eugene F. Ware, Former Pen-
sion Commissioner, Passes
Away at Cascade.

W. S. DEAN'S
Under Name of "Ironquill,"
Wrote Many Popular Poems.
Served in Civil War.

Eugene F. Ware, former United States pension commissioner, one of the leading lawyers of the west for many years, and a poet, author and wit of national reputation, died suddenly from heart trouble about 11 o'clock Saturday night, aged 70 years. He was well known in the Pike's Peak region, having visited here frequently.

Mr. and Mrs. Ware and daughter, Miss Amelia Ware, arrived at Cascade last Friday from Kansas, where Mr. Ware had been affected by the heat. Although endeavored by his recent attack, Mr. Ware appeared to suffer no serious ill effects. He spent almost the entire afternoon Saturday talking with Dr. N. Helzer, owner of the Hotel Ramona at Cascade, and former Mayor of this city. That evening Mr. Ware also appeared in his usual health, but as he started to undress, in his cottage about 11 o'clock, he fell back upon the bed, and a few minutes later was dead. Mrs. Ware, who was in the room with him, rushed to his side and sent her daughter to the hotel for assistance. The cottage is about a quarter of a mile from the hotel, so that the sufferer was beyond all aid before Miss Ware returned with the hotel clerk.

Body to Be Taken East.

The body was brought to the Fair-
lers and Law undertaking rooms in
this city, and today will be accom-
panied to Fort Scott, Kan., by the widow
and daughter. The funeral will be held
next Wednesday. In addition to the
widow, Mrs. Jeannette Ware, and
Amelia Ware, the only members of the
family with him in Colorado, the de-
ceased was survived by two daughters, Mrs.
Abby Neils of New York city and Mrs.
Jeannette Neils of Idaho, and a married
son, Eugene F. Ware. The father and
son were members of the
Kansas City, Kan., law firm of Ware,
Neils and Ware, but both withdrew
May 25 last, the father's seventieth
birthday. He on his large farm at
Fort Scott. In addition to Fort Scott
and Kansas City, Kan., Mr. Ware also
maintained a residence at Topeka.

Mr. Ware owned the cottage in
which he died. He named it the
"Never-Mind" and had often visited it
in summer. The family expected to
remain there for some time this season.

The Kansas attorney spoke before
the Winter Night club, the Anders
hotel here about two years ago, and
related most entertaining reminiscences
of his experiences abroad. His rare
humor giving added interest to the ad-
(Continued on Page Two)

DEATH OF MRS. REES
Death yesterday wrote final to the
battle which Mrs. David Rees of Colo-
rado city had waged for more than
five years to establish her claim to a
rich inheritance. The body will be
taken to Denver today for cremation,
and the funeral will be held probably
in that city.

Although known to her neighbors as
a woman of modest means, a number
of letters that Mrs. Rees had in her
possession, gave every indication that
her family was prominent for many
years in the social and business life of
Pennsylvania and Maryland cities, and
that it was only through domestic
tragedy of her childhood that Mrs.
Rees had been denied a fortune of large
proportions.

The story, as Mrs. Rees recounted
several months ago, dates back 40
years or more, or whenever was Mollie
Slack, 4 years old. According to her
story, her father deserted his wife and
the mother, thrown upon her own
resources, brought the child to Denver
when she was 10 years old. In Denver,
Leadville and other Colorado towns,
Mollie Slack went on the stage as a
child actress and for 20 years she ap-
peared in various plays and vaudeville
acts.

Father Railroad Superintendent.
It is understood that her father,
Thomas Slack, was for years superin-
tendent of one of the big Pennsylvania
and Maryland railroad lines. Since
early childhood Mrs. Rees had no direct
knowledge of her father, although she
knew him to be living.

A few years ago she married David
Rees, who survives her. She lost her
home in the Victor fire several years
ago, and subsequently came to Colo-
rado city, where she and her husband
located a small restaurant and made
it at 616 Colorado avenue.

One of the "other figures" in the
deal profession knew Mrs. Rees.
stage name, Mollie Slack, and
failed to call at her home in
city. Mrs. Rees was 45 years
her death shortly after noon
was due to dropsy.

10,000 STRIKERS IN MEXICO
REQUIRE FEDERAL SOLDIERS

TORREON, Mex., July 2.—Two com-
panies of federal troops were sent from
here today to Matamoros, a mining town
15 miles northwest, where a strike of
miners and mill operators is in prog-
ress.

The walkout is said to be the great-
est that has ever occurred in Mexico,
affecting more than 10,000 men.

A train of 100 cars was sent away
yesterday with women and children in event of dis-
orders.

None has been reported but the nine
owners asked for troops to reinforce
the local garrison as a precaution.
Four thousand men demanded in-
creased wages of 30 to 100 per cent.

MOST RECENT PHOTOGRAPHS OF THE CONQUERING MADEROS.
To the right, Francisco I. Madero, the Mexican revolution's master mind; next to him, his father, and to the left, his brother, Gustavo.

Reports from Mexico state that, broken in health and with his spirit worn to an edge, Francisco I. Madero, Jr., is on the verge of a nervous collapse. He announces that he will soon go to Tehuacan, a famous health resort in the state of Puebla, to remain until the election in October.

Governor Shafroth and Mayor Welcome of Citizens Appar-
Avery Also Speak—Re-
ports Given.

More than 1,000 people attended the
services at Bethel hospital yesterday
afternoon when that institution was
formally dedicated by the Right Rev.
Henry W. Warren, senior bishop of
the Methodist church. Addresses were
also made by Governor Shafroth and
Mayor Avery. Following the dedicatory
services, the buildings were thrown
open to the public for general inspec-
tion.

Mayor Avery, as the official repre-
sentative of Colorado Springs, ex-
pressed his appreciation of the work
done by those who have made the
building possible, and still more for
the spirit of helpfulness that lay be-
hind the work. He said that Colorado
Springs is not so proud of the hospi-
tal building as of the work and lives
of the people who made the new insti-
tution a success.

Governor Shafroth said that every-
thing done for public good in the state
of Colorado, affects the state as a
whole. Such a hospital as Bethel is of
more than local nature, he said, in
that it is a powerful factor for the
betterment of conditions throughout
the state. He further stated that the
hospital is also indicative of the spirit
of helpfulness that has done so much
to make Colorado what it is. In clos-
ing, he paid warm tribute to the wom-
en who have given their time and best
efforts toward making possible the
work of all hospitals.

Bishop Warren Speaks.
In his address, Bishop Warren laid
special emphasis on the religious as-
pect of the work of such hospitals as
Bethel. The Christian religion he
attributed the moving force present in
all work for the relief of suffering.
He said that the fact of his being
alive to deliver the dedicatory address
is due to the work of a hospital 10
years ago.

The report of E. B. Simmons, chair-
man of the building committee, showed
that the total receipts to date are \$74,
747.29. Of this amount, \$31,500 is from
the sale of bonds and \$43,247.29 from
paid subscriptions. The total amount
paid out on contracts was \$1,070.75,
leaving a balance of \$73,676.54 on hand.
For the contractors to complete the
building, \$13,160.32 is still needed. To
offset this deficit, the building com-
mittee has subscriptions due to the amount
of \$4,500 and bonds of \$3,500 to be sold,
making a total of \$10,467.54, or leaving
(Continued on Page Two)

18 MINERS MAY BE
BURNED TO DEATH

SOUTH PORCUPINE, Ont., July 2.—
Eighteen miners may be burned to
death in the Nome Extension mine,
which caught fire this afternoon from
a bush fire. The fire also is rag-
ing at Pease Lake and a mile there
may be on fire. Telegraphic communi-
cation is cut off.

SCIENTIFICOS BEGIN
TO FEEL OFFICIAL AX.

MEXICO CITY, July 2.—The names
of 41 scientificos have been dropped
from the government payroll by the
minister of communications and pub-
lic works and other offices of the gov-
ernment, according to a list compiled
by El Demócrata Mexicano. The Na-
tional treasury is said to profit by the
operation to the extent of more than
\$38,000 annually.

DUKE OF GLOUCESTER
RACE TRACK MAN, DIES

PHILADELPHIA, July 2.—Wm. J.
Thompson, familiarly known as the
"Duke of Gloucester," who owned the
Gloucester race track when racing was
permitted in South Jersey, and was the
most influential Democratic politician
in that section of the state, died today
in Belfast, Ireland. He was 63 years
old.

AIRMAN'S RACE POSTPONED

DOVER, July 2.—Seven contestants
in the circuit airman's race reached
Calais Thursday, but owing to the in-
ternational race for the James Gordon
Bennett trophy on Saturday at East-
church the seventh stage from Calais
to Dover was postponed until today.

56 LIVES BELIEVED LOST
WHEN STEAMER SOUNDER

CHRISTIANIA, July 2.—A cutter
has arrived here from Rolfs Oshaven.
His name, the Norway, reports that the
Norwegian steamer Soudern has found-
ered off Iceland. The steamer had 56
persons on board and it is believed all
were lost.

Calasro's Pu
Horrible Climax to
Recreation Trips

NEW YORK, July 2.—Five persons
were killed and two injured in a grade-
crossing accident near Ozone park, in
the suburbs, late today. The victims
were in a horse-drawn vehicle which
was struck by a Long Island train.

The crossing where the accident oc-
curred is at the bottom of a declivity
and is flanked by obstructions, which
prevent a clear view in either direction.
In the wagon was a party of five resi-
dents of the east side, who were pic-
nicking, and the driver. Of the four
men, and two men in the vehicle,
only one, a woman, is alive tonight, and
she is so badly injured she probably
will die. The other injured person is
Richard Creed, conductor of the electric
train which struck the vehicle.

The bodies of two of the victims
were ground under the train. Two
other bodies came hurtling through the
open front door of the first car and
struck Creed as he stood in the aisle.
The impact knocked him against the
car seats with terrific force and one
of his arms was so badly crushed it
had to be amputated. The body of the
fifth victim was thrown some dis-
tance.

FIRST WALK IN AUGUST
SUGGESTED.

WASHINGTON, July 2.—Indications
are growing that Congress may con-
clude its extra session earlier than ex-
pected. Many senators and Democratic
House leaders are figuring on the first
week of August as a possible adjourn-
ment time. The situation, however, is
not sufficiently clear to warrant a pos-
itive prediction.

No understanding has been reached
for a vote in the Senate on the Cana-
dian reciprocity bill, whose advocates
express complete confidence in its pas-
sage and the wool tariff and free list
bills. Senator Penrose, chairman of the
finance committee, proposes to press
for unanimous consent to fix dates for
votes on all three.

To hasten action, Mr. Penrose and
other senators are planning longer ses-
sions and may insist on night meet-
ings. Mr. La Follette of Wisconsin is
to offer amendments when he makes
his long speech on reciprocity. Mr.
Bristow of Kansas will put forward
insurgent contentions, and others who
figure in debate include Senators
Gronna of North Dakota and Thornton
of Louisiana, who will speak this week.
Horton of Ohio, Stone of Missouri,
Burton and Clapp of Minnesota; Belley
of Texas and Simmons of North Caro-
lina.

Neither the Senate nor the House will
be in session until Wednesday. The
Senate special committee to investi-
gate the election of Lorimer will re-
sume hearings July 16, and the House
"sugar trust" investigating committee
July 10. The House "steel trust" in-
vestigating committee will continue its
hearings soon.

Calton Tariff Report.
A revision of the cotton tariff will
be undertaken by the House committee
on ways and means, probably the latter
part of this week, and Chairman Under-
wood expects to report it to the House
shortly thereafter. House leaders do
not expect it to be pressed in the
Senate.

That and other matters are scheduled
to go over to the regular session in
December, provided expeditious action
can be secured in the Senate on the
reciprocity, wool and free list bills.

In the Senate next Wednesday, Mr.
Owen of Oklahoma will deliver his
dedicated speech on the commission
form of government and Mr. Newlands
of Nevada on federal commission regu-
lation of industrial interstate busi-
ness. Senator Works of California will
speak Thursday on the federal public
health service.

The committee on state department
expenditures expects to present to the
House, possibly this week, its report
recommending the dismissal of Consul
General William H. Maclellan at Calcutta
and Disbursing Officer Thomas Morris-
son of the state department, because
of their connection with the Justice
Day portfolio voucher and the \$160,000
unaccounted for therein. Mr. Maclellan
was formerly chief clerk of the depart-
ment.

The Honduran and Nicaraguan loan
guarantee treaties, the former already
before the Senate and the latter still
in committee and strenuously sought
by President Diaz of Nicaragua in the
interest of restoring business in his
country, already have been urged upon
the Senate for ratification in a mes-
sage by President Taft.

A treaty for the safeguarding of
seals in Alaskan waters, in which the
United States, Russia, Japan and other
nations are interested, is about ready
for submission to the Senate. The ad-
ministration also is counting upon ratifi-
cation of the British-American general
arbitration treaty, not yet con-
cluded, during the present session of
Congress.

The safe that figured in the postof-
fice robbery in Colorado city more
than a year ago was broken open last
Saturday night in the Greeley postof-
fice by a burglar who made a haul of
more than \$11,000 in stamps and cash,
according to a special dispatch received
by The Gazette last night.

After breaking open the safe, the
burglar extracted the money and
stamps, carefully closed the safe, and
loaded their loot into an automobile
and escaped. The theft was not dis-
covered until yesterday morning, and
it was six hours later before experts
could get the safe open. The men
have not been captured.

The safe was in Colorado city for
several years before it was broken
open and several hundred dollars in
stamps taken. Following the robbery,
the safe was repaired by the govern-
ment and sent to Greeley. Several
protests against the use of such a
fragile strongbox are said to have been
made by Postmaster D. E. Gray of
that place.

\$2,500.75 to be raised by the building committee. In addition to this amount, it is hoped that \$5,000 can be secured for an elevator, which makes \$7,500.75, the total amount which the building committee still wishes to secure.
The program also included devotional exercises, led by the Rev. M. N. Smith, pastor of the First M. E. church; a statement of the work by the Rev. F. H. Esbitt, and the singing of the devotional hymn, composed by Mrs. A. C. Beck.

If you depend upon the mail to do that important business you may regret the time it takes.

Successful men everywhere are using "Western Union Day Letters" and "Night Letters" to clip days off the fastest mail service.

THE WESTERN UNION TELEGRAPH COMPANY

(Continued From Page One)

He was also well known in this section of the country by reason of his service in the United States district court, where he was appointed by Judge A. B. Bigger of Topeka and the Cascade Town company against the Empire Water and Power company of this city. Mr. Ware, who was attorney for the plaintiffs, sought to restrain the Empire company from constructing pipe lines, etc., in Cascade canyon. He brought out the unique question of the value of the natural scenic beauty of the canyon, and protested against its desecration through work of the water company. The case was heard before Judge R. E. Lewis of the United States district court, who granted on riparian rights the injunction sought by the Cascade company, but denied that requested by Mr. Bigger. The Empire company appealed from the Cascade company decision, and Bigger appealed his case so that both cases are now in the United States circuit court of appeals.

His War Career.
Mr. Ware was born in Hartford, Conn., May 20, 1841, and received his early education in the public schools at Burlington, Ia. He served through the Civil war, joining Company E, First Iowa Infantry, when 19 years old. He was later transferred to Company I, Fourth Iowa Cavalry. He was mustered out as captain of Company F, Seventh Iowa Cavalry.

After the war, Mr. Ware removed with his parents to Kansas. According to the story told by him, in southeastern Kansas, where at that time while most were busy with their leisure time in an office of a peace justice, and in many cases when the justice was to decide points he would ask Mr. Ware's opinion. This started him in the study of law, and he was admitted to the bar at Fort Scott, Kan., June 18, 1871. He later was admitted to practice before the United States supreme court. He married Jeanette P. Huntington of Rochester, N. Y., October 22, 1874.

Until a few years ago Mr. Ware took an active part in politics, having removed from Fort Scott to Topeka in 1883. He was a member of the Kansas state senate from 1878 to 1884, and was a delegate to two Republican national conventions. He was appointed commissioner of pensions by Roosevelt in 1902, and resigned in January, 1905. According to close friends, when President Roosevelt offered Mr. Ware the place, he declined, saying that he did not like the work. To this Mr. Roosevelt replied: "That is just the reason I want you to take it. The longer you hold the job the less you will like it." The Kansas accepted the position, May 10, 1902, and it is said that his resignation was placed at the disposal of the President May 11, 1902, to be accepted two years later. The pension commissioner has charge of the disbursement of about \$150,000,000 annually.

Mr. Ware was a member of the American Bar association and of the Iowa bar association. He was also a member of the Topeka, Mayflower, Deschamps, and other patriotic societies.

Famous as a Poet.
Under the name of "Ironquill," he wrote many poems which have become known all over the country. His "Washer-woman's Song" is perhaps the best known. Just after the battle of Manila, when the nation was celebrating Admiral Dewey as a result of his overwhelming victory over the Spanish fleet, Mr. Ware dashed off the following:

O, Dewey was the morning, upon the first of May,
And Dewey was the admiral, down in Manila bay,
And Dewey were the regent's eyes, them other royal blue,
And Dewey felt discouraged? I do not think we do.

This was published in the Kansas City Journal, and made such a "hit" that it was reprinted in hundreds of newspapers all over the country. His "Rhymes of Ironquill," written in 1902, went into the thirteenth edition, and four editions of his "Court to Court," (1909), "Rhuril" (1909), also took the popular fancy. He wrote "The Rise and Fall of the Saloon" in 1904. The Lyon Campaign and History of First Iowa Infantry in 1907, and "The Indian Campaign of 1854," in the following year. Mr. Ware also attained no little reputation through his translations, including "Coronado's March" (1895), which he translated from the French of Ternaux-Compans, and which, in 1904, was taken from Castilian account of 1396. In 1904 he translated into English Justinian's Latin "Roman Water Law." During this long period of usefulness, Mr. Ware also contributed frequently to various legal and literary publications.

WASHINGTON, July 2.—While Capt. Eugene F. Ware, pension commissioner, he drew forth a storm of disapproval from Grand Army men

Twenty-Fifth Annual Christian Endeavor Convention Mecca of Thousands.

ATLANTIC CITY, N. J., July 2.—President Taft, Speaker Clark, former Vice President Fairbanks and many men, leaders in religious work, are expected to address the thousands of delegates at the twenty-fifth annual Christian Endeavor convention, which opens here next Thursday. The convention will hold daily sessions for a week, and the theme will be "Training for Service."

The feature will be the visit of President Taft, who is expected to speak twice on Friday night. "Training for Service" will be the theme of the convention. President Taft will come to Atlantic City on the yacht Mayflower, and arrangements are being made to give him a warm welcome as the craft steams into Absecon inlet.

The convention activities will begin with the annual meeting of the United Society of Christian Endeavor, at which officers will be elected. The formal opening will take place Thursday evening. The Rev. Dr. Francis E. Clark, the founder and president of the World's Christian Endeavor union, will deliver the president's message.

There will be sunrise services every day and dozens of meetings will be held in the forenoon of each day. The afternoon and evening will be given over to the general meetings.

NEW YORK, July 2.—The improvement in finished steel products 15 days ago was extended to raw material—pig iron and coke and to semifinished steel last week. The volume of business in pig iron was the largest in two months, aggregating 100,000 tons.

The greater activity was at the expense of prices, Buffalo furnaces dipping below \$13, and eastern Pennsylvania furnaces shading \$14 for No. 2 foundry. It is notable that little steel-making iron was sold, but the foundry movement steadily broadened, and contracts are now under negotiation for 400,000 tons of more. Some of the largest melters of gray iron are in the market for long delivery, and many more small consumers are buying for early shipment.

Contracts for foundry and furnace coke were placed in the east and central west, calling for 250,000 to 300,000 tons, shipments to extend over six months to a year. The larger orders for finished material quickened the mills and foundries so that the industry as a whole is operating 70 per cent of capacity, and the finishing mills generally have 70 per cent to 75 per cent in commission. June rail contracts aggregated 180,000 tons, but shops booked orders for 4,476 cars and 4,000 more are under negotiation; locomotive works took orders for 194 engines. Steel building orders were smaller, but the June contracts were the largest of the month, record this year, 225,000 tons.

by his reference in an annual report and in a speech in San Francisco to an "obelisk of gold," which he said could be erected with the money paid out in pensions.

Commissioner Ware, in 1902, attended a meeting of Thomas Fortune and Francis Pickens, called on to speak, after explaining that the government, since its establishment, had paid \$3,200,000,000 in pensions, concluded:

"On the Sabbath day I figured that if I had all this vast sum in coined gold, I could build it of an obelisk 10 feet square at the base and 10 feet 8 inches in height."

(Continued from Page One)
day in 10 years, reaching 55 degrees on the top of a skyscraper, while in the government weather kiosk on the street 100 degrees was reached. Private thermometers registered 100 and 106. On June 10 of this year, 94 was reached, but today's mark was exceeded by that of July 1, 1901, when the official temperature was 92.

BOSTON, July 2.—Today's torrid temperature tempted many in New England to take a plunge in the ocean, lake or river to seek relief. Eleven drownings resulted.

BALTIMORE, July 2.—The weather bureau this morning registered a maximum temperature of 98 degrees. Three prostrations were reported. The government observer at Keedysville, near Hagerstown, in the Blue Ridge mountain section, reported 102 degrees, and the same temperature was reported by Hagerstown.

PHILADELPHIA, July 2.—Philadelphia sweltered today when the mercury climbed to 94 degrees in the weather bureau and to greater figures on the street level.

In all parts of the state a torrid wave holds sway. In Allentown, the official figure was 101 degrees; in Harrisburg, 98, and in Wilkesbarre, 92.

ST. LOUIS, July 2.—Nowhere in the city or near by was relief to be had today from the heat. A temperature of 87 degrees was noted in the government station on the roof of a skyscraper.

One death and two prostrations were reported, as well as a suicide and two drownings, attributed to the heat.

CINCINNATI, July 2.—The climax of a day marked by four fatalities on the rivers near, came this evening when the steamer Island Queen ran down a skiff containing three women and two men. The paddle wheel of the steamer hit the skiff and threw its occupants into the river.

At the scene of this city was struck by the wheel and sank instantly. The accident occurred near a bathing beach and the women and men in the skiff were rescued by bathers who swam to their assistance.

NEW YORK, July 2.—Five additional deaths were made tonight, swelling the total to 10. One man com-

What Wives Should Know About Germ-Laden Milk

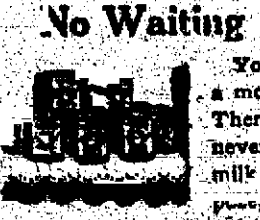

Mac ain, here a 6 some fac a you show a how a you germ ac on mil k. Conic fac a you mil k is u. e. y. serie.

Milkmen's milk is always germ-laden. The germs that get into it breed millions like them. There is no such thing as a safe milk—a pure milk—unless it is utterly sterile.

The Swiss Milk
To perfect our process we brought to our plants famous Swiss and Dutch experts. To supply our dairies with the richest milk, we bought thousands of Holstein cows. We copied our plants from the best in the world.

No Waiting No Waste
You can buy Van Camp's a month's supply at a time. There is never a shortage, never any waste. You have milk and cream for any purpose, without any effort. It is like a cow in the parlor.

The Tasting Process

In model dairies, in our best dairying sections, a milk inspected Holstein cows.

Close to each of these dairies we have built an aseptic plant, where the milk is evaporated.

The milk, fresh from the cows, is put into a vacuum. There, at a low heat, we evaporate two-thirds of the water. We do that to cut down the shipping bulk.

Nothing is added—no sugar, no preservative. Nothing but water is taken out. The milk is sterilized after the can is sealed. It comes to you absolutely safe, and fresher than milkmen's milk.

WINONA, Minn., July 2.—All previous records in southern Minnesota were broken today. The official figure in Winona was 105.

NEW HAVEN, Conn., July 2.—This was one of the hottest days the state has passed through in years. The temperature on the streets of the city ranging from 104 to 106.

WIFE OF NEW YORK POLITICIAN GOES ALOFT

NEW YORK, July 2.—Mrs. Timothy L. Woodruff, who has developed a penchant for aeroplanes, flew again today with Aviator Bonwith, this time over Mincola and Westbury, at an altitude of 1,500 feet.

Charles G. Bennett, secretary of the United States Senate, and Frank Harper, secretary to Theodore Roosevelt, also went aloft with Bonwith.

FIVE HOURS OF MARRIED LIFE ENOUGH FOR LACEY

PUEBLO, July 2.—M. D. Lacey and Miss Mary Rup were married here at 4 o'clock yesterday. They had met for the first time seven hours previous. Today Mrs. Lacey called at the police station and asked officers to assist in finding her husband. It was a case of love at first sight. Five hours after the ceremony Lacey decided they had made a mistake and bought a ticket to Denver. The bride objected and a disturbance followed, which was released after a 44 hours of confinement and has not been since.

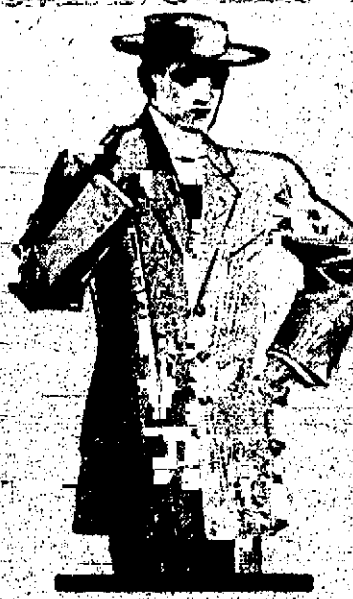

CHICAGO, July 2.—Improvement was noted today in the condition of Manager Frank Chance of the National league baseball club, who collapsed Saturday in Cincinnati before the game. Although suffering severely from headaches, Chance said he would accompany the team east Tuesday unless warned against the trip, but said he would not enter the game.

URIC SOL
TRADE MARK
NOT A NATURAL REMEDY BUT A NATURAL REMEDY FOR THE CURE OF RHEUMATISM

B. W. Dennis, 1032, Sacramento Street, San Francisco, writes:
"Urictol is the ONLY REMEDY I ever took that did me any good, and, furthermore, the only remedy that has not injured my stomach. Urictol has helped me greatly, and I keep my rheumatism in control by its occasional use. I have recommended it to others and have noted its beneficial effects."

We have a lot of Voluntary Testimonials from People who have used Urictol.

RUSSIAN DESTROYER FOUND
SUBMERGED AT PORT ARTHUR

TOKIO, July 2.—Dredgers at Port
Arthur, on the Liao Tung peninsula,
have found a fully equipped Russian
destroyer about 10 miles to the south.
The destroyer is undoubtedly a relic
of the Japanese-Russian war.

What's New?

Do you feel sick, tired, or nervous, have frequent head-
aches, coated or greasy tongue, bad taste in morning,
"burning," belching of gas, acid rising in throat after
eating, or indigestion, or burps, foul breath, dizzy spells,
poor or variable appetite, nervousness or irritability?

It is a sure cure for all these troubles. It is a

ADVERTISING NOTICE

At a meeting of the county school
superintendents of El Paso, Teller,
Douglas and Elbert counties, in Denver
Saturday, it was decided to prepare to
hold the regular annual teachers' in-
stitute of this district for the last two
weeks in July instead of the first two
weeks in August, as was intended.
This action was taken in order that
should the new law governing the is-
suanee of state teachers' certificates
go into effect, those who attend the
teachers' institute may have an oppor-
tunity to qualify for certification under
the new legislation.

According to this law, effective Au-
gust 1, 1912, which was passed by the
last general assembly, teachers are
required to have a certain specified
number of weeks' normal work before
they can qualify for certification. For
those who wish a third-grade certi-
ficate, six weeks' normal work is re-
quired; for a second-grade certificate,
12 weeks; and for a first-grade certi-
ficate, 18 weeks. In addition to a high
school diploma.

Works a Hardship.
It is the belief of many of the county
superintendents in the state that the
new law will work a hardship on those
trying for certificates and that the re-
ferendum clause of the constitution may
be used to act as an injunction on the
law until action can be taken by the
people in the election of 1912.

By holding the institute for the last
two weeks in this month, should leg-
islation against the new law not be be-
gun, there would still be time for the
summer school to give the amount of
normal training needed for certifica-
tion for the third grade before the reg-
ular school year starts. A petition to
invoke the referendum will need about
11,000 signatures.

The meeting held Saturday in Den-
ver was attended by Mrs. Inez Lew-
is of El Paso county; C. A. Bent,
Douglas county; and Mrs. Clara Kiern,
Elbert county.

STRIKING SEAMEN THREATEN CHURCHILL AT GLASGOW

GLASGOW, July 2.—A great demon-
stration of seamen and dockers was
held today. The men marched through
the streets with bands of music. J.
Havelock Wilson, general secretary of
the seamen's union, who made a speech,
said that they proposed to make it hot
for Home Secretary Churchill in the
house of commons because ships were
allowed to sail without qualified crews,
thus endangering the lives of the pas-
sengers. He threatened that if the
owners did not come to time, the strike
would spread to every port in Europe.

The "Friend—I suppose it was hard
to lose your daughter?"
The Father—Well, it did seem as if
it would be at one time, but she
landed this fellow just as we were
beginning to give up hope.

SPORTING NEWS

EDITED BY R. G. ARGO

Collegiate's Zooz Lose to the Rio Grande

Errors in the infield and the inability to hit when hits were needed, proved the undoing of the Zooz yesterday afternoon when they were defeated by the Rio Grande of Denver with a score of 6 to 2. Ludwig, one of the Zooz candidates for the first sack, made one error and refused to take several chances. Rely, his successor, made two errors in the only inning he played. Bancroft, as third, made two bingles, and with a man on first, persisted in trying to put the batter out rather than to play to second and put the runner out with the chance of making a double. Hastings pitched a consistent game for the most part, but was touched up when his meat runs. For the game with the Rio Grande this afternoon at Zoo park, either Sinton, former first sacker at Colorado College, or Davis will hold down the initial station. Hastings will go to left field and either Ackley or Rely will be on the rubber. Friel, formerly captain of the Cripple Creek team and one of the heaviest sluggers in the district, will probably be in Zoo uniform this afternoon and will materially strengthen their lineup. Nichols, the former Western League finger, who pitched an unusually good game yesterday for the Rio Grande, will not play today, either Galt or Downey taking his place.

How the Runs Were Made.

The fun started in the third inning when Nichols issued a pass to Bancroft, who after making first safely tried to steal and was caught by Winkler's pretty throw to Schweigert.

AMERICAN LEAGUE.

HOW THEY STAND.

Club	W.	L.	Pct.
Detroit	46	22	.676
Philadelphia	43	22	.662
New York	38	28	.573

Cleveland	31	39	.438
Washington	24	44	.353
St. Louis	17	48	.262

Chicago Skins Cincinnati.
CHICAGO, July 2.—Chicago batted McQuillen and Fromme at will and won an easy game from Cincinnati. The visitors bunched hits in the eighth and with an error and a base on balls saved themselves from a shutout.

Score: R.H.E.
Chicago.....4611222—13 15 1
Cincinnati.....00000030—3 7 3
Reubach, Richie and Graham; McQuillen, Fromme and McLean; Clark, Gode, Downey, Bates; three-base hit, Gode, Zimmerman; bases on balls, off McQuillen 1, Fromme 2, Reubach 2, struck out by McQuillen 1, Fromme 1, Richie 1.

Cards Lost to Pirates.
ST. LOUIS, July 2.—A wildly enthusiastic crowd, the largest which has witnessed a National league this season on the home grounds, saw the Pittsburgh team shut out in its third straight defeat. Both pitchers were in fine form but the St. Louis fielders outplayed the visitors. Fred Clarke was struck on the head by a pitched ball and had to quit.

Score: R.H.E.
Pittsburgh.....00000000—0 7 4
St. Louis.....00100020—3 8 0
Cannitz and Gibson; Salles and Bliss.
Two-base hit, Ellis; bases on balls, Salles 4, Cannitz 6; struck out by Salles 4, Cannitz 2.

Galt laid a slow one to third and copped first safely, on Rollins slow throw. He was advanced on Warbritton's drive over second base, and while the Rio Grande were trying to tag the little Zooz right gardeners, answered the home plate. In the first of the fourth, Hastings walked Winkler, who was advanced on Smith's single. Then both scored on Zietz' two-bagger on the first base line. Score 2 to 1.
In the seventh, Wellbrock made first on Friel's error. Connors captured first on Ludwig's error and both were scored on Tormey's two-bagger down first base line. In the eighth, Galt walked, made second and then hit home, to first and scored on Galt's drive to left field. In their half of the ninth, the Zooz came in strong again. Connors walked out a homer and Tormey scored on errors. Score 6 to 2.

Lineup for Today's Game.
The lineup for today's game will probably be:
Zooz—Galt, cf; Warbritton, rf; Sinton, 2b; Davis or Sinton, 1b; Ady, ss; Hastings, p.
Rio Grande—Rollins, 2b; Winkler, 3b; Smith, lf; Zietz, rf; Wellbrock, cf; Schweigert, ss; Connors, 1b; Tormey, 1b; Galt or Downey, p.

JUNIORS LOSE TO SPONSORS

The Robbins baseball team played the West Side Robbins, which is a junior organization of the same club, yesterday morning at 10 o'clock, defeating them 3 to 5. At the end of the sixth inning the game was called on account of rain. The batteries were: Robbins—Fuller and Boddy; West Side—Tischell and Hall. The Robbins team goes to Simla tomorrow to play a game of July game there in the afternoon.

POINTERS FOR THE MOTORIST

Why Tires Are Affected by Damp.
The action of dampness on the rubber part of an automobile tire is insignificant, but its effect on the canvas is serious.

Following this line of research, some experiments were made recently at one of the Michelin laboratories, during which a piece of cotton fabric was exposed to the action of sun and rain for a month in the open air. While this fabric did not lose more than 2 per cent of its initial strength, a piece of canvas after being wet through and dried in front of a fire more than 20 times, lost only 3 per cent.

When the fabric was left in a moist atmosphere, such as on the floor of a damp cellar; for example, it was not long before spots and stains denoted their appearance. Such stains denoted the presence of minute destructive growths or of mushroom organisms, the action of which reduced the fabric to mold. The same is true of wall paper hung in a damp room. Eventually, the paper will fall from the walls in the form of mold and dust.

The application of these experiments to automobile tires is easily followed. Sometimes an envelope will blow out suddenly, perhaps when the car is being used for the first time in the spring. The cause is weakness resulting from the decay of the canvas in the envelope. In most cases this weakness is local, being limited to places where water has been allowed to penetrate. The position of such defective places is easy to locate by the action of the water.

In order to judge of the seriousness of the damage, it must be determined whether the canvas of the tread only has been affected, in which case the tire can be retreaded and restored to thoroughly serviceable condition. If the body canvas is affected as well, it becomes necessary to have the envelope completely rebuilt.

There is no way whereby this canvas deterioration caused by dampness can be prevented other than by storing tires in cool places that are absolutely dry.

The "Book of Bibendum," issued by the Michelin Tire Company of Milwaukee, Wis., contains some valuable suggestions relative to the care of tires.

STILL SKIRMISHING AROUND THE BORDER

JUAREZ, Mex., July 2.—In a skirmish fight at Palomas, Mex., yesterday between 20 rurales under Roman Chavez and a small band of Magonistas under command of J. M. Rangell, one Magonista was killed and the others dispersed. They are believed to have crossed the international line into New Mexico near Palomas.

A high-contrast, black and white portrait of a man, likely from the mid-20th century. The man has short, dark hair and is wearing a dark suit jacket over a light-colored shirt and a dark tie with diagonal stripes. The portrait is set within an oval frame. The image is heavily stylized, with deep blacks and bright whites, giving it a graphic, almost stencil-like appearance. The background is mostly white with some dark, indistinct shapes.
